

### KNOWLEDGE NETWORK at a glance:

Incorporating

The KNOWLEDGE NETWORK is a Learning Management Environment that has been specifically designed to support the development of School/College based Knowledge Communities, especially in relation to:

- ✓ **Communication within the college community**
- ✓ **Teaching practice and learning experiences**
- ✓ **Student support services**
- ✓ **College administrative practices**

The Knowledge Network:

- ✓ **Connects students, educators and parents together, transparently.**
- ✓ **Students are able to access assignments, coursework, resources, reports, news and support.**
- ✓ **Parents are able to access their childrens reports, assessments, unit/subject details, and teachers**

The KNOWLEDGE NETWORK has been specifically designed to integrate with your existing Student/School Management System:
